Recognizing Book Lovers.

You may recognize the book lover as soon as you glance at his shelves, though they may be few. Some people, especially servants, if allowed to interfere, marshal books according to colors, as they would like to buy them by the yard. Not so the book lover (I mean the man who loves books for their contents). He is kind to his books and, knowing they have souls, wishes them to live happily together. He would not, to take an extreme case, sandwich "Bradshaw" between "Stones of Venice" and "Modern Painters."—London Globe.

Tunnels.

A New York newspaper remarks that "ferries come and ferries go, bridges rise and bridges fall, but tunnels last forever." There is a scientific truth in the observation. Of all works of man earthworks, plain earth mounds sodded over, are about the most enduring. A properly constructed tunnel is essentially a work in earth and so almost as permanent as the great globe itself.—Exchange.

PAN-AMERICAN GOOD WILL IS IN BALANCE

Invasion To Help or Injure It Greatly, Says Barrett.

Washington, Mar. 14.—John Barrett, director general of the Pan-American Union, believes that the President's action in ordering troops into Mexico will either greatly help or immeasurably injure the cause of Pan-Americanism.

"As I interpret Pan-American sentiment," said Mr. Barrett, "the chief interest is centered on the consequences of the action taken by the United States rather than the action itself. It is a test of the real attitude of the United States toward her sister republics. If American troops go into Mexico, capture Villa and return without violating the sovereignty of the country and without creating the suspicion of desired territorial conquest, the Latin American republics will have had a practical demonstration of our friendly and helpful spirit toward them.

"But the slightest sign of territorial conquest or violation of Mexican sovereignty may do incalculable harm and turn opinion throughout Latin America irrevocably against us.

\$12,500 FOR JANITOR'S LOVE

Mother of Thirteen Children Wins Verdict Against Rich Widow.

New York, Mar. 14.—A supreme court jury decided that \$12,500 is proper restitution for the theft of a janitor's love.

This amount was awarded to Mrs. Elizabeth Carey, the mother of thirteen children, in her \$50,000 suit against Mrs. Minerva B. Toler, the wealthy widow of John Watts De Pester Toler, for alienating the affections of her husband, Patrick C. Carey, once czar of the Berkeley Arms apartments.

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.
